THINKING OUT LOUD

Nugget readers may think that the last word on whiskers was said in this newspaper in H. M. L. Sr's widely discussed column on the hairy subject, but such is not the case. For one thing we want to remind everyone of the NUGGET PRIZES. The Nugget in addition to $50 provided by the Chamber of Commerce for the whisker-judging ontest, is offering 5 PRIZES OF 5 DOLLARS EACH FOR THE MOST BEAUTIFUL AND MANLY HIRSUTE ADORNMENTS in the classifications given below:

1—The Best Full-Flowering or Uninhibited Whiskers.

2—Best Fringe or Border Whiskers.

3—Best Chin Whiskers, Any Style.

4—Best Burnsides or Mutton Chops.

5—Best Moustache or Soup Strainer.

It is too late, now, but shouldn't we have had a booby prize? Think of the poor fuzz-whiskered throng, who try SO hard, and comb and use shoe black and just WAIT, and yet nothing happens, or at least something that looks like peach fuzz on a very young peach or something a youthful cat could make disappear if enticed by a spreading of cream. It could be called the SUFFERING and SYMPATHY prize, and it's a cinch that the bedeviled growers of near-whiskers or super-fuzz have earned it, far more painfully than the heavily haired sporters of super-double Van Dykes and kindred hirsute masterpieces and living monuments.

Naturally those whose hair is weak and downy and pale and practically transparent are sorely tempted to break ranks with the Whiskerino Movement and become LONE-WOLF BAREFACES. So all the more credit is due to those who, though possessors of nylon, or Chihuahua whiskers, refrain from shaving them off and claiming that they didn't care anyhow and could really raise a fine crop is they only wanted to try. The man with moral courage is the man who can "make do" with what little whiskers he's got.

Then there is the type who growe a splendid type of hair, but not very much of it. In the long run, say 30 or 40 years of earnest growing, this sort of growth can make a very ornamental showing, when waxed, or in extreme cases, braided. However, on the present short notice, mustaches of the strong but scarce variety are known as BASEBALL TEAMS—nine on each side.

The multi-colored mustache offers a distinctive problem to its wearer. Frequently there will be rich spots or bright orange or black interspersed with weaker sections in a pale flesh color, which make it look like there's no hair at all. What is a man to do in a case like this? DYE? Ladies who dye their hair occasionally feel themselves under a mild onus for so doing. Does this apply to a man who dyes his mustache in order to secure a nice even brown or blacck rather than the natural zebra or leopard design?

Webster says a mustache is "hair worn on a man's upper lip" and in this definition we see a ray of hope for the spotty-haired, nylon-haired, Chihuahua haired and just plain no-haired. The point is that Webster doesn't say WHOSE hair the hypothetical man wears on his upper lip.

NEVADA CITY 50 YEARS AGO

All of the mines in the district were looking fine and more miners were employed than at ony one time in the county's history.

BANNER MT. POST TO HELP RETURN FALLEN HEROES

A committee charged with aiding families in Nevada County to bring home their war dead has been appointed by Fred C. Garrison, commander of Banner Mt. Post of the Veterans of Foreign Wars.

On the committee are Robert Dasman, chairman, Howard C. Bennetts, Carl Hieronimus, Joseph W. Day, William Polkinghorn, Norman Kistle, C. E. Bosworth, Nolan O'Neal and Max Weiss.

This committee will compile lists of war dead from this community and will confer with next of kin of these heroes to determine if they desire to have them brought home for burial. The committee also will give the families every possible assistance in completing arrangements for repatriation and if the families so desire, will plan and conduct military funerals when the remains reach their designated final resting places.

Under the bill, remains of those who fell and are buried abroad will be brought home only if their next of kin so desire. Next of kin also may choose the final resting place, in a private cemetery or in any of the national cemeteries.

Those disinterred for repatriation will be placed aboard special funeral ships and upon arrival in the United States will be carried to their final resting places on funeral trains. They will be under constant military guard from the time of disinterment until they are delivered to next of kin.

"The Veterans of Foreign Wars, which is composed entirely of men with overseas combat experience is honored to have the opportunity of assisting the loved ones of our fallen heroes," Commander Garrison said.

Tom Odea is vaationing in this vicinity. He recently made a trip to Sierra County where he has mining interests. Odea was formerly connected with the Associated Press in New York.

Reverend Joseph Moore will officiate and interment will be in the International Order of Odd Fellows Cemetery in Pine Grove.

The deceased was born in Czechoslovakia 48 years ago. He had gone to the San Francisco bay area to bring home his wife who had been spending a vacation there. He had been employed for several years in the Bret Harte Dairy.

Surviving are his wife, Mrs. Pearl Strach, a daughter, Mrs. Pearl Williard, two sons George W. Jr., naval chief petty officer and Robert Strach of this city.

Frank Sullivan, formerly of Austin, Minn., is recuperating from a recent illness which confined him two weeks in Miners Hospital. He is a guest at the home of his son, John M. Sullivan and family on Prospect Street.

Justice of the Peace George W. Gildersleeve has set 2 p. m. Friday for the preliminary hearing in the case of Frederick Rukavina, on charges of assault with intent to commit bodily harm preferred by his wife, Sonya. At the arraignment Wednesday morning, Rukavina plead not guilty. Bail was set at $500.

It is reported that Mrs. Rukavina wrote a letter to the sheriff's office stating it was not her husband who gave her a beating last Sunday night. Despite her desire to have charges dropped, Sheriff Carl J. Tobiassen reports that he has other witnesses for the case, and that it will be carried forward in the usual manner.

The case of the alleged horrible beating of Sonya Rukavina, 25, which occurred Monday morning, took a new turn that night when the woman departed without ceremony from the Nevada County Hospital at 11:30 p. m. and telephoned the sheriff's office Tuesday morning to beg that the charge of intent to commit great bodily harm, a felony, which she had brought against her husband, Frederick Rukavina be dismissed.

She had staggered to the door of the sheriff's office Monday just before noon and fallen in a faint. Deputies hastily placed her on a bed used by the man on night duty and summoned an ambulance.

At the Nevada County hospital in a hoarse whisper caused by a badly swollen throat, she unfolded to Sheriff Carl J. Tobiassen, a sordid tale of beating and choking. She said that she and her husband had come from Portola, Plumas County and rented a cabin Sunday night at the Five Mile House on the Tahoe Ukiah Highway. During the night, she claimed, her husband gave her a terrible beating and choked her. In the morning, according to her story, he brought her down to the city limits and turned her out of the car, whereupon she made her way to the sheriff's office.

At the request of Sheriff Tobiassen, Rukavina was arrested in Sacramento and transported to Nevada City Tuesday.

Mrs. Rukavina when she sought by telephone to have charges against her husband dropped, was informed that she would have to come to Nevada City in person, and said she would do so.

New Stamp Soon For Canning Sugar

Industrial sugar allotments, with the exception of those granted bakers, will remain unchanged for the July-September allotment period, the OPA announced today.

Bakers, including manufacturers of baking mixes and similar products for most industrial users will be placed on the same ration basis as manufacturers of ice cream, candy and carbonated beverages, who receive 60 per cent of their sugar base.

OPA also announced that as previously planned a second home canning stamp Spare stamp 10 good for five pounds of sugar will be validated on July 1. It will be good through October 31.

The 368,000 tons more of sugar that is available for distribution to civilians for the third quarter as compared to the second quarter is the usual seasonal increase made to provide for higher sugar use by commercial and home canners at this time of year.

GEO. LEGG VS. OPA EXECUTIVE

Mr. George A. Legg
231 Nevada Street
Nevada City, California
Dear Mr. Legg:

I received your letter of recent date to which was attached a clipping from the Nevada City Nugget of May 23, 1946 which consisted of a letter from your self to the editor as of that date.

As you will note from our letter to the newspaper, you were apparently under a misapprehension with regard to summer resort areas. It has never been established by the rent regulations that such areas are not under rent ontrol. There is a specific exemption which we outlined in our letter to the editor.

If you are unable to qualify under the requirements of this exemption section, we suggest for your consideration the possibility that you might have a ground for adjustment under Section 5a 7 of the rent regulation which permits such adjustments if the rent on the maximum rent date was substantially lower than at other times of the year by reason of seasonal demand or seasonal variations in the rent.

If this possibility has not already been dicussed, we suggest that you again get in touch with Mr. Horace Walpole, area rent director, Auburn, California.

Very truly yours,
HENRY A. CROSS,
District Rent Executive.

---

231 Nevada Street
Nevada City, California
June 14, 1946

Mr. Henry A. Cross
District Rent Executive
1355 Market St.
San Francisco, Cal.
Dear Sir:

Answering your letter of recent date, you state I am under misapprehension with regard to summer resort areas. You have written the editor of the Nugget that in reference to summer resort areas there are speific exemptions regarding housing accomodations which you quote him. I have six cottages which come under these exemptions. May I call to your attention, Mr. Cross, that it takes the time of the district rent executive of San Francisco to clarify a situation which should have come under the attention of your local representative.

In my printed article in both local papers I ask: How would you classify Glenbrook Park and Lake Olympia? No direct answer was given. Please refer to that part of the article which mentions Indifference, Inefficiency and Arrogance.

Indifference when no one in the local office could say my cottages might come unde regulations mentioned above. Inefficient when a man in your San Francisco office tells me I am out of luck. My prices were too low. I would be permitted to charge 1-30th of the monthly rate for summer vacationists thus making the ridiculous price on cottage No. 7 74 cents per day. Arrogance when the attorney in your office would hardly condescend to glance at the schedule submitted. A demand was made for some evidence to prove I was acting in good faith. What better evidence could one ask when an outline of type of accomadtions and prices were submitted.

It appears that the rental department of the OPA is not fair to landlords. The net result is to prolong the housing shortage. There should be a hundred or more houses under construction right now in this district. It is alleged great numbers of homes are now being built. Construction in certain southern California districts under the control of millionaire contractors. The little fellow is not considered.

Rather tough when an army captain just arrived from overseas, unable to find a place to live offers me $1.50 per day for the house in question. Were I foolish enough to accept the offer we all know the landlords legal liability. The house still remains closed and probably there will be others closed before the eummsr is over.

Your department fails to realize that all over the nation realtors will not consider building until the threat of unfair restrictions is removed.

One cannot question the honesty of intent emanating from your office. You are so entangled with red tape that the only solution is to abolish OPA. Some one on our government is authorizing the expenditure of vast sums of money to proling the life of the OPA. I would venture to suggest that a few juicy jobs are more at stake than the welfare of the general public.

GEORGE A. LEGG.

PGE PAYROLL GOES UP OVER HALF MILLION

Presidential fact finding board recommendations of a 5 per cent raise for clerical workers and increased retroactivity on other raises already granted by the company were accepted today by Pacific Gas and Electric Company according to A. E. Wishon vice president and general manager.

The fact finders who conducted hearings on a wage dispute between the company and the UWUA, CIO, recommended that physical workers be given no increase above the 18 1-2 per cent already offered by the company and accepted by all PGE employees except CIO members. The CIO union had accepted a 10 per cent increase last October but rejected raises of 5 per cent and 2 1-2 per cent this year, demanding more. Compounded the three raises total 18 1-2 per cent.

The board recommended that the 5 per cent general increase granted by the company as of January 1 be made effective as of November 1 and that the union accept the 2 1-2 per cent general increase granted by the company as of February 1.

The wage dispute was submitted to the board at the company's request after the union had demanded a 20 per cent increase over VJ day and had rejected company figures showing that wages already had been increased by the amount the union asked and more. The union had threatened a strike.

The hearings disclosed that PGE employees had been granted and offered wage increases averaging 20.57 per cent or 22.4 cents per hour since June 1945 and 47.15 per cent or 42 cents per hour since January 1, 1941 and that the IBEW, AFL, a larger employees unit, had accepted the company's offer.

Documentary exhibits showed that PGE wages and post war increases were higher on an average than those paid by other California utility companies or by other industries.

The increase and retroactive benefits allowed by the board will be granted to the AFL union employees and to unorganized employees as well as to members of the CIO union.

FLY FISHERMEN FIND GOOD LUCK IN TRUCKEE AREA

Fishing throughout this area is generally improved with results on the whole better than at any time since the opening of the season.

Fly fishermen are reporting better results, particularly on the Truckee river between Squaw Creek and Lake Tahoe. Some very fair catches have also been made with spinner. M. L. Jennings, supt. of the Southern Pacific Co. of Sacramento reported making a nice catch this morning with one weighing 3 1-2 pounds.

Down the river from Truckee good catches have been made using Reigomites, grubs and salmon eggs. The river is lower and much clearer this week.

Near Hirschdale on the Truckee River the following sportsmen reported their success. Arthur Chloupok of Sparks landed 8 nice fish and Bill Morley, postmaster of Sparks caught 7 beauties.

Bait fishing on the tribuatry streams is reported fair.

Independence and Weber lakes report fair catches but in the higher mountain lakes the water is reported still too cold for good fishing and a few of them are still frozee nover.

The high winds of the past week have made the fishing on Lake Tahoe only fair.

The nights are still pretty cool and campers should come prepared with warm blankets.

Sportsmen are warned that it is illegal to smoke in the forests except at places of habitation, public camp grounds or special 'fag" areas designated by signs.
